Girls R.O.C.K Leadership Camp is a unique camp experience designed to give **rising 7th and 8th graders** opportunities to be role models for young campers, develop confidence and leadership skills. High School Teen Leadership

The Girls Rock Math Teen Leadership Program provides **rising 9th-12th graders** with training and experience to take their leadership skills to the next level, all while earning service hours and volunteer hours required for high school graduation.

By becoming a Teen Leader with Girls Rock Math, high school students develop valuable life skills as a counselor that will help prepare them for college and future job opportunities.

Teen leaders will spend two weeks as counselors where they mentor campers by coaching them through fun and engaging math activities, help them forge friendships, gain confidence and see their true potential in STEM!
